SOFTWARE ENGINEER

vsaiswarya98@gmail.com | [+971 503253316](tel:+971503253316) | [LinkedIn](#) | [Own Visa](#) | [Dubai, UAE](#)

Summary

Motivated and detail-oriented **Python Developer** with **3 years of hands-on experience** at a fast-paced software company, specialising in back-end development, REST API integration, and database management. Proven ability to build scalable, high-performance applications using modern Python frameworks and Agile methodologies. Adept at writing clean, maintainable code and collaborating effectively within cross-functional teams to deliver impactful software solutions.

Professional Skills

Programming Languages: Python | JavaScript

Frameworks & Libraries: Django | Django REST Framework | FastAPI | Flask | Pandas | NumPy

Databases: PostgreSQL | MySQL | MongoDB | SQLite

API Development: RESTful APIs | API Integration | API Documentation

Authentication & Security: JWT | OAuth 2.0 | RBAC | Token-Based Authentication | Session Management

Asynchronous Processing: Celery | RabbitMQ | Redis

Frontend: REACT | HTML | CSS

DevOps & Containerisation: Docker | CI/CD Pipelines

Version Control & Tools: Git | GitHub | GitLab | Jira | Postman | VS Code | Swagger | Hoppscotch

Concepts: OOP | Microservices | Agile/Scrum | Unit Testing | Debugging | Data Structures

Work History

Pearlsoft Technologies LLP | – *Software Company*

September 2022 – August 2025

Software Engineer

Kerala, India

- Collaborated with cross-functional teams using **Agile/Scrum methodologies**, participating in sprint planning, code reviews, and daily stand-ups to deliver high-quality software on schedule.
- Integrated third-party **REST APIs and microservices** into existing platforms, enhancing product functionality and enabling seamless data exchange between internal and external systems.
- Implemented **unit testing and debugging** using **PyTest and Postman**, ensuring code reliability, reducing bug rates, and maintaining a clean, well-documented codebase following industry best practices.
- Managed source code versioning and collaborative development workflows using **Git and GitHub**, contributing to CI/CD pipelines and supporting smooth deployment processes across development and production environments.
- Worked with **relational and non-relational databases** including **MySQL and MongoDB**, writing optimised queries and designing efficient data models to support scalable, data-driven applications.
- Integrated AI modules and machine learning APIs into production applications, enabling automated data classification, recommendation systems, and natural language processing capabilities.
- Integrated payment gateways including Stripe and Razorpay into e-commerce platforms, implementing secure payment flows, webhook handling, subscription billing, and refund management.

Education

Master of Computer Application

2018 - 2022

Kerala, India

Bachelor of Computer Application

2015 - 2018

Kerala, India

Certifications

- Python for Data Science — IBM
- Docker Essentials: A Developer Introduction — IBM
